SC-400T00A – Microsoft Information Protection and Compliance Administrator Change Log

January 2024

Purpose

This document highlights the significant changes to the SC-400T00A Microsoft Information Protection Administrator course from the previous release. This document is for Microsoft Certified Trainers and Instructors to use before they deliver the class or during preparation for teaching the class.

This is not an error log or a supplement to the Course Materials. This document just provides additional context so that you can understand the major changes to the course content. Most of the course materials have been updated to fix typos, broken links, and formatting. So, we recommend you always download the latest copies.

✔️ Please read the Trainer Prep Guide which provides the overall strategy for implementing this training.

July 15, 2022 – Microsoft Purview branding change and add labs to support 3-day course

Update: **Minor**

Type of change: **General / Slides / Content / Labs**

General

- **Names and concepts changed.** The *Microsoft Purview compliance portal* is the new name replacing the *Microsoft 365 compliance center*. Read more about the use of the new Microsoft Purview brand here: [The future of compliance and data governance is here: Introducing Microsoft Purview - Microsoft Security Blog](#)

- The concept of *Data Governance* has been rebranded *Data Lifecycle Management* which appears updated through-out the course.

Slides

- PowerPoints adjusted. Slide images have been updated where applicable and for the new units added to the course. The order of some of the topics in lesson 2 and 3 of module one have been re-organized to better facilitate flow of that content. This change was the result of feedback from instructors.

- Module 2 (DLP) has added three units to the first lesson. These new units include:

  - Configure DLP policies for Power BI

  - Configure DLP for on-premises repositories

  - Implement the Microsoft Purview Extension

Labs

- The labs for the course have been updated. Most of the additional steps and exercises are in module 2 and 3 labs. Module three includes a new exercise titled "Configure event-based Retention".

October 28, 2022 – Nomenclature updates and Trainer Prep Guide Updates

General / Slides

General

- Nomenclature changes to all ILT to adopt Microsoft Learning Path nomenclature and remove Skillpipe nomenclature

- Updated Trainer Prep Guide to new template.

Slides

- Nomenclature changes to all ILT to adopt Microsoft Learning Path nomenclature and remove Skillpipe nomenclature

- Keyword Dictionary updates in PowerPoint_01: Keyword dictionaries now support up to 1mb of terms after compression.
  Create a keyword dictionary - Microsoft Purview (compliance) | Microsoft Learn

February 17, 2023 – Updates to Endpoint DLP to include macOS

Update: **Minor**

Type of change: **Slides / Content**

Slides

- Updates to PowerPoint_02 to include verbiage around onboarding macOS devices for Endpoint DLP

Content

- Updates to Prepare Endpoint DLP to include information and instructions for onboarding macOS devices:
[Prepare Endpoint DLP - Training | Microsoft Learn](#)
- Updates to screenshots in Define policy settings for your DLP policy
[Define policy settings for your DLP policy - Training | Microsoft Learn](#)

June 2, 2023 – Major Course Update – Labs, slides, Learn content

General / Slides / Labs / Content

General

Major course update to support Microsoft Purview compliance along with information protection. This course update adds Compliance Manager, Content search, eDiscovery (Standard), eDiscovery (Premium), Audit (Standard), Audit (Premium), Communication Compliance, Insider risk management, Information barriers, and Priva to SC-400. Two new functional groups of Monitor and investigate data and activities by using Microsoft Purview and Manage insider and privacy risk in Microsoft 365 were added to the course. Updated FSI assets Course Datasheet, Assessment Guide, and Educator Teaching Guide with new functional groups.

Content

- **Adding 2 Learn Paths to support 2 new functional groups.**
  - [Monitor and investigate data and activities by using Microsoft Purview - Training | Microsoft Learn](#)
    - This Learn Path contains 6 modules and supports functional group - **Monitor and investigate data and activities by using Microsoft Purview**
  - [Manage Insider and Privacy Risk in Microsoft 365 - Training | Microsoft Learn](#)
    - This Learn Path contains 6 modules and supports functional group - **Manage insider and privacy risk in Microsoft 365**

Slides

- Adding 2 slide decks to support new SC-400 functional groups
  - SC-400T00A-ENU-PowerPoint_04.pptx supports functional group and Learn Path **Monitor and investigate data and activities by using Microsoft Purview**
  - SC-400T00A-ENU-PowerPoint_05.pptx supports functional group and Learn Path **Manage insider and privacy risk in Microsoft 365**

Labs

- New labs to support functional group **Monitor and investigate data and activities by using Microsoft Purview**

  o Lab exercise **Explore Compliance Manager**

  o Lab exercise **Case investigation with eDiscovery (Standard) and content search**

- New labs to support functional group **Manage Insider and Privacy Risk in Microsoft 365**

  o Lab exercise **Configure Communication Compliance**

  o Lab exercise **Configure Insider Risk Management**

  o Lab exercise **Configure Information Barriers**

June 9, 2023 – Minor Course Update – FSI

General

Add lab links to FSI asset Course Datasheet with updated labs from the 6/2/2023 update.

July 14, 2023 – Minor Course Update – DLP Reports

Slides / Content

Content

Updates to Learn Path, SC-400: Implement Data Loss Prevention, Module Manage data loss prevention policies and reports in Microsoft 365 to reflect UI changes in DLP deports in the Microsoft Purview compliance portal.

Slides

Updates to SC-400T00A-ENU-PowerPoint_02 to reflect changes in content.

August 25, 2023 – Minor Course Update – Title Change

Slides / General

Slides

Update slides to reflect new name, SC-400: Microsoft Certified Information Protection and Compliance Administrator Associate.

General

- Update FSI assets to reflect new name, SC-400: Microsoft Certified Information Protection and Compliance Administrator Associate.
- Update trainer prep guide to reflect new name, Microsoft Certified Information Protection and Compliance Administrator Associate.

October 6, 2023 – Template Updates

Update: **Major**

Type of change: **Slides / Educator Assets**

Slides

- Slides have been updated to reflect a new PPT template. A knowledge check slide has been added to the end of each learning path deck. It is up to the discretion of the trainer if they want to use this slide.
- Major slide content has not been updated, though slide content has been relatively unchanged.

Educator Assets

- Updated Educator Teach Guide to include more detailed information on labs.
- Removal of course data sheet document.
- Updates to Assessment Guide to include multiple choice and open questions within the document instead of in Microsoft Forms.

January 2, 2024 – Rearrange labs

Update: **Bug fix**

Type of change: **Labs / Trainer prep guide**

Labs

- The order of Module 1 labs has been updated to reflect the order of what's in Learn paths and PowerPoint deck for SC-400
- Previous order:

- o   Exercise 1 - Manage Compliance Roles
- o   Exercise 2 - Manage Microsoft Purview Message Encryption
- o   Exercise 3 - Manage Sensitive Information Types
- o   Exercise 4 - Manage Trainable Classifiers
- o   Exercise 5 - Manage Sensitivity Labels

- • New order
  - o   Exercise 1 - Manage Compliance Roles
  - o   Exercise 2 - Manage Sensitive Information Types
  - o   Exercise 3 - Manage Trainable Classifiers
  - o   Exercise 4 - Manage Microsoft Purview Message Encryption
  - o   Exercise 5 - Manage Sensitivity Labels

Trainer prep guide

- • The trainer prep guide has been updated to be made clearer. Erroneous redundancies were corrected as well as updates to reflect the updated lab order.
